

HOUSEHOLD VOTER REGISTRATION DATA For Law Enforcement Officers

To protect the location of your residence, it is essential that your residence address be suppressed for all members of your family who live at that address, are registered to vote and share your last name. For this to be possible, those family members must use the same residence post office box address that you do and we must have knowledge as to who those family members are. Please provide the information required below for yourself and for each such person. Your residence address will appear only on official records not available for public inspection. Please complete and return this form to your general registrar. Any family member who moves to a new residence must notify the registrar immediately. **PLEASE PRINT OR TYPE ALL REQUESTED INFORMATION.**
